

COUNCIL MEETING

Aldermen Assemble, But Transact Little Work

Another meeting of the city council was held yesterday afternoon in the new city jail. Only two spectators were present, John Robb and a Journal reporter, but it was a busy meeting and one replete with interest. The question of finances was discussed at some length, but no definite action taken.

Both Mr. Robb and the Journal man made brief but eloquent addresses, of which the city clerk took no notes.

Chief of Police Leeper notified the council that the sheriff had expressed his willingness and desire to turn over to the city such books and accounts as related to city licenses.

The council took up the matter of the police force, but arrived at no definite conclusions. Chief Leeper was, however, directed to go on duty immediately as an officer, but was given no authority over the other policemen until the legal status of the appointments could be looked into.

Police Judge Richardson was also inaugurated. He will begin trying cases immediately at police headquarters in the new jail building. He was directed to confer with the city clerk in the matter of procuring stationery.

The Journal was requested by the council to state that the services of forty policemen are desired for next Tuesday during the time that President Roosevelt is in Reno. They will be required to serve without pay. Any citizens who will lend their services for this occasion are requested to notify the chief of police today.

Making a Kick

The business men on Commercial street are getting heartily tired of the outlandish racket made by a branch of the Salvation Army calling itself the Volunteers of America. For about an hour every evening they sing and pray on the busy drum, overworking that noisemaker to the extent that it is

impossible for people within a block to use their telephones or for restaurant chefs to hear the orders of waiters. It is all right for these people to go out and save precious souls and ask for contributions to help along the good cause, but they oughtn't to make such an unholy racket. They really are making nuisances of themselves and the business men on the Row request the Journal to advise them to either go to work or hire a hall in a sequestered wilderness.

Reception Committee

The reception committee to receive President Roosevelt in Carson next Tuesday morning will consist of the following named gentlemen:

Governor John Sparks, Mayor Will U. Mackey, Chief Justice Belknap, ex-Governor Colcord, ex-Governor Adams, Chairman of the Executive Committee Torreyson, Surveyor General Kelley, State Printer Maute, Judge M. A. Murphy, of Esmeralda; Judge N. D. Arnot, of Alpine; Senator Brougher, of Ormsby; Senator Dangberg, of Douglas; J. A. Yerington, J. P. Woodbury, H. F. Bartine, of the G. A. R., J. E. Gignoux, of Lyon; J. H. Ryan, of Storey, P. J. McGrath, of Esmeralda; S. L. Lee, T. B. Rickey, J. F. Emmitt, H. R. Mighels.

Still With Us

John Melin received a telegram yesterday from San Francisco stating that he would not have to leave immediately to join the Wisconsin, on which battleship he will take the place of Second Musician. He is given until the 10th of June to sail. The members of the Eagle band are glad to have Mr. Melin's valuable services for a short time longer.

New Proprietor.

C. Unlacke has disposed of the Owl Cafe to Dan Haggerty, an expert caterer. This popular dining place will be run under a perfect system and the guests of the house will have no cause to complain. "We strive to please," is Mr. Haggerty's motto.

After the Crickets

Prof. Doten of the Nevada Experiment station has gone to Elko county to investigate the plague of crickets that is reported to be threatened there. He will endeavor to find a method of combating with the pests.

A Big Contract

The Riverside Milling company of this city has been awarded the contract to supply the Indian schools in this jurisdiction with flour. There are five schools and about sixty tons of flour will be required.

Death of His Father

Prince Catlin, a student at the University, received sad news yesterday morning. A telegram arrived from Carson announcing the death of his father. Mr. Catlin left for Carson by the next train.

In Honor of a Guest

A reception was given yesterday afternoon by Mrs. R. L. Fulton in honor of Mrs. James Davis of Carson, who is visiting at the Fulton residence.

Hot noon lunches at J. J. Becker's.

PRESIDENTIAL PREPARATIONS

The committee that is arranging the reception to the president is meeting nearly every evening and has its plans almost completed. Little has been given out, but that does not mean that the committee has been idle.

Among the arrangements is to place Virginia street in as near perfect condition as possible. Judge Cheney and others who are occupying the larger portion of the street with building material, have promised the committee to have the street cleared. The sprinkling wagons will be kept in requisition on this street and there will be no dust to mar the parade.

Two bands have been employed to

make music for the paraders and spectators and the Grand Army of the Republic and Woman's Relief Corps will turn out in full force. The school children will take a not unimportant part in the procession.

The stand will be erected in front of the court house and the committee will announce tomorrow who will occupy it with the president.

Every security possible will be given President Roosevelt. Forty extra policemen will see that the crowds do not venture beyond the ropes along the line of the parade or at the stand where the address will be given opposite the court house.

PROMISING SILVER MINE.

Ledge is Not Large but is Richer Than Tonopah.

Will Cann and O. Heiser have returned from Churchill county, where they and several others have secured a bond on a silver mine that promises to make them rich. The proposition was originally owned by Ex-Governor Jones and later by Mrs. Sifford.

The ledge is a couple of feet wide and lies between granite and slate, an ideal formation for silver. The ledge matter is largely spar quartz, but the ore streak is immensely rich. The ore is almost pure gray chloride of silver and samples have assayed \$6,000 a ton. Some of the silver is still in a ruby form so near the surface that it is penetrated by grass roots. There is also a quantity of native silver. The gold value of the streak runs from \$20 to 60.

The mine has never been worked to a depth greater than thirty feet. Several shipments have been made and the returns yielded good profit to the owners.

Immense Yards

The doubting Thomas who doesn't believe that Reno is to be made a sort of headquarters for the Southern Pacific company, should watch the work as it progresses here. The plans call for not less than fifty-seven side tracks. This will require the moving of 300,000 cubic yards of dirt on ground that is practically level. The Hated steam shovel will be moved in a few days to a point two miles east of Reno to begin this work.

The First Picnic

The picnic season will be inaugurated tomorrow by an excursion of the students of Atkinson's business college to Bowers' Mansion, the resort recently purchased and fitted up by Henry Riter. The V. & T. Co., has given a round trip rate of 75 cents.

Found Guilty

Joe Cross, charged with robbing L. Chinaman, has been found guilty. The jury returned its verdict at 9 o'clock yesterday morning.

IN THE DISTRICT COURT.

George Gordon Found Guilty of the Crime of Robbery.

The case of State of Nevada vs. George Gordon was on trial in the district court yesterday. The defendant is charged with stealing harness.

Last night the report reached this office that the defendant had been found guilty. When the reporter arrived at the court house the place was in darkness, but the verdict was very probably given as announced above.

Complying With the Law

The new law moving gambling games to the second stories of buildings in this city is being complied with. A second structure has been added to three buildings where gambling is carried on and several other proprietors of places of this sort have secured second story rooms. Soon the tiger will have its lair no more forever, or for two years, on the ground floor.

Visit From the Superintendent

Superintendent Laws of the Sacramento division of the Southern Pacific, came up from Sacramento yesterday morning and, after remaining in this city a short time, continued on to Wadsworth. He returned later in the day and spent all night in Reno. His special train goes west early in the morning.

Volcano Erupts

MEXICO CITY, May 13.—Columbia volcano is again active. The latest eruption is the greatest in many years. Reports from the scene say that the damage was not great. There was no loss of life.

A Hurrah Time

A meeting of the Bricklayers' Union was held last evening in the Bank of Nevada building. It was largely attended and was one of the most interesting social meetings held by the union. It was the first anniversary of the union in Reno. Brother Jack Wiley was the recipient of congratulations from all the brethren on his return to the fold. A banquet was served. It was presided over by John

Horn, who acted as toastmaster. Afterwards there was a stag dance. The Irish woman was skillfully executed, at least the dance was, by two nimble-footed members. Delegates from other unions were present.

Making Butter

The Journal announces that representatives of a wholesale establishment in California are looking for Nevada butter. It would pay the dairymen of Nevada to learn how to make butter. Butter-making is a science, and good butter every time is not a matter of choice or luck, says the News.

Yet it is a well known fact that over half of all the butter sold in Carson City or any other Nevada town, is not fit for the market.

Good butter is as cheaply manufactured as poor butter. The only point is the knowing how. Some general system of instruction in this line among the farmers and dairymen of Nevada would result in an improved product that would command a much higher price in the market and would never find its way into the receptacle for soap grease.

Another point upon which the dairymen's education seems to have been neglected is his arithmetic. Four-fifths of them appear to be laboring under the delusion that twenty-four ounces make two pounds.

VICTORY FOR GANS.

Tom Tracy Was Notable to Go Nine Rounds.

PORTLAND, Ore., May 13.—Joe Gans, the colored champion, defeated Tom Tracy here tonight in the ninth round. Gans outclassed his man and won as he pleased. After the fourth round there was only one man in the contest. In the eighth he knocked down Tracy and had him helpless. After he had landed one or two blows in the ninth Tracy's seconds threw up the sponge. Gans meets Fitzgerald in San Francisco this month.

A New Process

LONDON, May 13.—A new method of hardening steel has been discovered which is expected to revolutionize the industry. By hardening it in a vapor of quicksilver the steel is rendered so hard that it will not rust and is vastly superior to the present product. Tests by the British government show that the new method is all that the discoverers claim. It seems likely to render the present armor plate of ships obsolete. The agent will soon leave for the United States. He will present his invention to steel men.

New Life-Saving Devices

BOSTON, Mass., May 14.—The United States Life-saving board will commence its annual meeting in this city today and take up for consideration a number of new devices intended to aid in life-saving. Other devices offered are a globe-shaped craft to replace the lifeboat of all vessels at sea, and an automatic life belt, containing chemical ingredients which immediately inflate it with gas when it touches the water.

CARRIERS ARE NEEDED

Reno Growing Too Large For Present Delivery System

Of late the Journal has been in receipt of several kicks about the free delivery system and, rather than accuse the department of carelessness without making due inquiry, a representative of this paper interviewed Postmaster Dawson last evening. He said:

"I have realized for some time that the force of mail carriers placed at my disposal was inadequate and I have made a number of requisitions. As a result there will be another carrier added on the first of July, but I do not think that even that will be enough.

"It requires the carriers two hours to make the two collections per day from the drop boxes. Routing occupies three hours more and there is only two hours left for delivery. When the roads and streets permit the use of bicycles the carriers have more time to make the deliveries, but not sufficient.

"The government does not permit its carriers to work over eight hours per day and if they do so and it is not reported not only they, but I am liable to dismissal from the service in accordance with civil service rules, so you will see that we are seriously handicapped at present in our efforts to give Reno the best service possible.

"Shortly we will have another package drop at the corner of Second and Virginia streets. This will be a great convenience for people doing business in that portion of town."

Struck Cattle

The other evening after the C. and C. train arrived at Mound House, the engineer started to back down to Wabuska after a train and ran into a band of cattle. The engine was thrown off and the track torn up for some distance. No one was hurt, but it required several hours to repair the track.—Enterprise.

AMBASSADOR'S SON TO WED

LONDON, May 13.—Mrs. Choate, wife of ambassador, and Miss Choate left today for the United States to attend the wedding of Joseph Hodges Choate, Jr., and Miss Cora Oliver the latter part of this month. The ambassador is much disappointed because his official duties here will prevent his attending the wedding.

ALBANY, N. Y., May 13.—The wedding of Joseph Choate, Jr., and Miss Cora Oliver will take place in this city and will be a notable event. The bride elect is the daughter of General Robert Shaw Oliver, one of Albany's richest and most influential men, widely traveled and a famous wit. Miss Oliver's grandfather was General Rathbone, and her aunt, Miss Alice Rathbone, who was a great beauty, was married to William Phelps Eno of New York.

Joseph Choate, Jr., was an honor man at Harvard, is a celebrated golfer and is a fine, stalwart type of American manhood. He has been in service as third secretary of the American embassy in London, and is on an indefinite leave.

Hart and Gardner to Meet
LOUISVILLE, Ky., May 13.—The Southern Athletic club expects to seat an immense crowd in the Auditorium tonight when Marvin Hart, of this city and George Gardner of Lowell come together for a twenty round bout. The two fighters are considered among the best of the light heavyweights. With the exception of Hart, Gardner has won over every prominent aspirant for championship honors in his class. Hart likewise has a long string of victories to his credit and the result of tonight's meeting between the two is awaited with interest by followers of pugilism throughout the country. The men will meet at catchweights, which is regarded as a slight advantage to Hart.

Mississippi Bankers
HATTIESBURG, Miss., May 13.—The annual meeting of the Mississippi Bankers' association began here today with a good attendance of members from various parts of the state. After an address of welcome by Col. W. H. Hardy the convention took up the discussion of various questions of particular interest to the capitalists and financiers of the state. Cotton insurance, state bank supervision and the assessment laws, with particular reference to the office of state revenue agent, were some of the topics of the agenda. Tomorrow the members of the association and their ladies will enjoy an excursion to Gulfport.

Sims was arrested by Officers Ferrel and Tatum. He had only \$1.35 on his person when apprehended.

To Whom It May Concern

As a citizen of Reno I think the carpenters of this town who claim to be union men and work for each other's benefit are wrong in their boycott against the People's Restaurant, and furthermore I don't think a man of any principle will take advantage of a woman, when he does not take advantage of the non-union carpenters of Reno. Furthermore I wish to state that a man who contracts for himself and deals fair with his fellow citizens does not have to belong to the union.

TOMORROW'S FIELD DAY

A Number of Interesting Events to Take Place.

A committee from the Reno High school will today welcome the representatives of Virginia City who are to participate in the Academic Field day meet. We expect thirty students from that city. As yet only three high schools have entered their teams, but several more are expected before the specified time for entering has expired.

The Reno High school athletes will conclude their training today. They have trained long and faithfully and in consequence are in superb condition. They are a husky lot of young men and they are ready to put up the battle of their lives to defend the honor and reputation of their school upon the track and field. We hope and feel that victory will be theirs, and if spirit has anything to do with it, it will surely be so.

While this work has been going on among the husky boys of limb, those who are to defend the home school on the oratorical platform have not been idle. They have worked silently and faithfully, and we also expect first place in this branch. John Cottrell and Miss Ethel Folsom will ably attend to this branch of the annual meet.

A beautiful trophy that is the object of all this strife may be seen on exhibition at Herz's jewelry store on Virginia street. It is a magnificent piece of workmanship and is well worth the efforts of any one to strive for.

The price of admission to both Field day meet and Declamation contest has been placed at 25 cents and we expect a liberal patronage of Reno's generous citizens.

On Saturday evening the K. P. S. C. Social club will entertain the visitors and a few town people by a dance. The admission, by invitation only, will be 50 cents. The invitations will be presented at the door, and no one will be allowed to enter who does not possess one. This dance will be one of the principal features of this time of merriment, and the visiting teams will remain over a day to attend.

Another Race

The Journal has been giving publicity for the past day or two to a proposed race between the members of the Eagle and Reno Wheelmen's band. The relay is now assured. Mike Lake has loomed up as a dark horse for a position on the Eagle relay team. He will ride one of the old-fashioned wheels with the little trailer. The people over in Carson are planning a coup. In their band are a number of good riders and they have already gone into training. They have challenged the winner of the race here to a ten mile sprint for money, marbles or meal tickets.

Will Wed Tonight

A marriage license was issued last evening to George H. Dobbs of Winnemucca and Miss Marie Johnson of Wadsworth. They will be married at the home of the bride this evening. The ceremony will be performed by Rev. T. E. Bellam, pastor of the Episcopal church. Mr. Dobbs is a popular railroad man and the bride is well liked in this city, where she has many friends. Her home was formerly in Winnemucca, where her brother is engaged in business. The Journal extends its best wishes to this worthy young couple.

BIG DEAL AT OLINGHOUSE

Dispatch Says It Will Be a Great Aid for the Camp.

The consolidation of several of the best properties in Olinghouse Camp has been effected and have passed into the hands of the Springfield-Nevada Mining company incorporated under the laws of the state of Massachusetts with home office at Springfield.

The company will absorb the entire interest of H. T. Benson & Co. Thus merging the Slip, Renegade, Smuggler 1 and 2. Slip mill situated on the Golden Fleece placer; latter included the W. M. & M. Co., mill and place. ground. The Cabin No. 2, Midway; Canada, V; and Clipper placer claim.

Twenty thousand dollars being paid to Spiro Francovich and Angelo Dondero for a one-half interest in the last named claims. Both mills are to be kept on continuous run of ore from Cabin No. 2 and Slip and Renegade mines.

In view of the fact that over 600 tons of \$25 is now on the dump and large quantities in sight in each property, we can see no reason why this is not possible. In fact no surprise need come to the public of future development increases output of this combination to a point requiring larger capacity for ore treatment.

This company is composed of men well known in the business and mining world from the east and west.

Ira Miller, of Westfall, Mass., a mining man owning various and extensive mining interests in Missouri, Massachusetts and Nova Scotia, is president.

Dr. Patterson, of Reno, the popular and leading physician of this state, is vice president.

Sayward Galdraith, of Springfield, Mass., treasurer of the Hampden Trust company, is treasurer.

Mr. O. Coleman, of Westfield, Mass., is secretary.

Dr. Warren P. Blake, of Springfield, Mass., and Luigi Della Piazza, of Reno, both very wealthy, are directors.

The president of the company will also act as general manager, and H. T. Benson as superintendent of mines and mills.

Mr. Benson has been closely and actively identified with Olinghouse camp since November, 1901. To state that he has been chiefly responsible for the interesting of these men, is but giving him his dues. But for the meritorious manner in which his plans were carried out we would hardly have had the large bodies of ore which have been disclosed in the Slip and Renegade mines.

From the result of work done we are led to believe a thorough knowledge of mines and mining exists in the brain of this stalwart pioneer of Colorado mining. His honest and straightforward dealings have won for him a most enviable reputation among the business men of the county and state.

Another large company is under way for organization and will control interests equally as valuable, and rapid work will be insured with two and perhaps more wealthy companies to develop the hidden treasure of the district.

A one-third interest of the Forlorn Hope has been sold to Warren T. Golding by E. T. Lothrop consideration being \$5,500 in gold coin. This fraction is producing good ore and promises to be a very valuable acquisition to Mr. Golding's present holdings in the camp.

For Sale

Four partners with no means are desirous of interesting party with some money in low grade gold proposition; 20,000 tons of ore in sight; five miles from railroad, one-half mile from water; wood \$5 per cord at mine; fullest investigation desired; first come first served. For particulars address box 72. 141w

An Object Lesson

Curator Ingalls of the Reno Chamber of Commerce informs the Journal that arrangements have been made to have President Roosevelt visit the exhibit while in Reno. He will be able to obtain from the display there a greater idea of the resources of Nevada than by any other means.

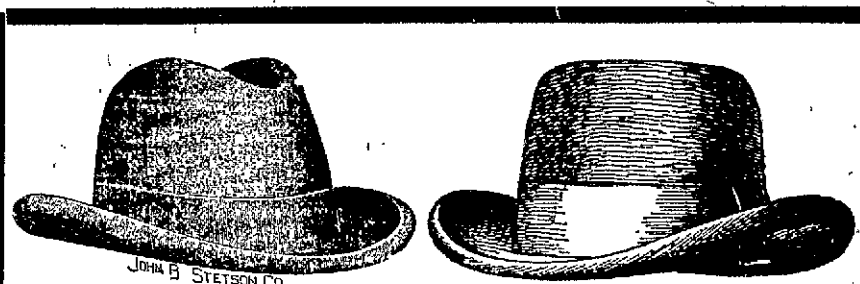

Meeting Continued

The stockholders of the Reno Chamber of Commerce took a recess until Friday evening at 8 o'clock when they will complete their business. As matters to come before the meeting are of the utmost importance it is hoped that there will be a large attendance.

Interesting Exhibit

Fish Commissioner Merklinger will have by Friday a fine collection of Truckee river trout. They will be placed in jars in a preservative liquor and will add greatly to the interest of the Chamber of Commerce exhibit.

RESTRICTING THE FRANCHISE

UNDER New Hampshire's amended constitution men will not be permitted to vote unless they can read and write. There are several other State where the same qualification is a pre-requisite, and a number of others with pending constitutional amendment to that effect.

In this matter we go up against a question that troubles statesmen and sociologists. Theoretically it might appear that the educated man would be more competent to pass upon public questions of moment than the ignorant one. Admitting that to be so, how far shall we carry the idea? Government is growing more complex, public questions more intricate. Shall we eventually leave government and the settlement of public questions to men who have been educated along those lines, who have as we may say, been specialists? There are some who hold that idea, who would have a distinct governing class, trained and educated for that purpose, as England's diplomatic corps is trained. That idea has been seriously advanced within the last year. Our government is not based upon such a theory. Class rule is foreign to our idea.

This is of course pushing the idea to the extreme. But would a restriction of the franchise to men who can at least read and write result in better laws and better government? The tariff and the currency questions have been the most important issues in political affairs for some years. An illiterate man understand the theory of protection and free trade, and in regard to the currency question we know men right here in Nevada with scarcely any educational acquirements, who upon that issue could down in debate nine-tenths of the college graduates of the east, leaving them not an inch of ground to stand upon. An educated man unless he is familiar with schedules and statistics of manufactures, imports and exports, cannot thoroughly understand and intelligently pass upon a tariff law. That is one of the reasons why it is frequently suggested that the tariff should be placed under the control of a permanent commission.

Some British statesman, Gladstone we believe, once said that the currency question sometimes seemed too much for the human mind to comprehend. Can we expect that the ability to read and write would help very much to understand it? Neither do men always learn civic virtue from the spelling book or the arithmetic.

We are not claiming that the franchise might not be restricted with beneficial results, but we are puzzled to know how or to whom it should be restricted, and we questioned whether the few States which require an educational qualification are better governed than those who do not.

PORTENTS OF WAR

AT this juncture matters seem to be nearing a crisis both in Manchuria and the Balkans. Every day it become clearer that Russia intends to hold the great Chinese province permanently, and every day the feeling become more intense in Japan. The completion of the trans-Siberian railroad makes Russia's position a peculiarly strong one, as she can move troops in large numbers into the province with great rapidity. If she is not dislodged quickly she can soon make her position in that quarter impregnable, and from that vantage ground seize another slice of China when she gets ready. Japan alone is not strong enough to successfully contest Russian supremacy, but that may not prevent the Empire of the Mikado from giving battle if the Japs become sufficiently wrought up.

There is some vague talk about an alliance between the United States and England and Japan. But our own country may be considered out of any such combination. We have no threatened interests that would justify us in joining an armed coalition against Russia. England may unite with Japan, but even that is by no means certain. And this uncertainty is increased just now by the threatening aspect of affairs in European Turkey.

The Macedonian revolt strikes at the very integrity of the Turkish Empire. If an actual war stage is reached it may involve, besides Bulgaria, all the great powers of Europe except France and Germany, and it is not impossible that even they might be drawn into it. In brief, the situation both to the east and west is full of portent, and it will require smooth diplomacy to avert war at both of the principle storm centers.

Meanwhile it is encouraging to know that peace reigns in the Philippines. There has not been a report of a battle for four or five days.

CARRYING CONCEALED WEAPONS

THE last legislature enacted a law making the carrying of concealed weapons a misdemeanor, punishable by fine or imprisonment. A person may, however, upon showing sufficient cause, obtain a permit upon application to the Board of County Commissioners, such permit to be attested by the County Clerk. Such a law is, generally speaking a highly respectable one and is upon the statutes of most of the State in the Union, although it is, in our opinion questionable whether in the aggregate it has not worked more harm than good. The better element that carries weapons for self protection, or other justifiable purposes is more apt to obey its provisions than the turbulent and vicious, with whom the law is practically

a dead letter. The footpad or highwayman would certainly pay no attention to the statute, while the good citizen whose business requires him sometimes to be out late at night in the town or to travel on lonely roads in the country, is without protection against this class of criminals and is liable to lose his property or even his life, because of his observance to the law of his State.

In making the County Commissioners the source of the permit granting power practically nullifies that section of the statute designed to grant the privilege to those who would avail themselves of it for justifiable and lawful purposes. The Boards are generally in session only a few days in each month and the red tape incident to an application is as unnecessary as it is burdensome and annoying to the applicant. The Chief of Police in incorporated cities and the sheriff's of counties elsewhere, are the proper and logical persons to hold and exercise that power. They are accessible at all times, and are better qualified to exercise it judiciously than any other officers of the county or State. It is to be hoped that the next legislature will amend the Act to that effect, or repeal it altogether.

THE America, the grand old yacht which first brought to our shores the cup which has since remained with us, is to be broken up, having become unseaworthy, but it will be time enough to make pieces of all that remains sound in her when the cup she brought here fifty "golden years ago" is lifted. That trophy may or may not be in danger of removal; but, to borrow from superstition, the breaking up the keel of the America looks a little like a farewell to the cup. Until the coming races are sailed out to a finish, hands off the America. If next August the cup still sticks where it has remained so long let the glorious old water-logged and worm-eaten yacht America be dressed in full.

GENERAL MILES' report on what he saw in the Philippines is suppressed by the war department. The General retires next August and then he will be at liberty to talk.

PRESIDENT ROOSEVELT is telling his audiences how to prevent strikes. Is he working for that \$200 prize offered for the best solution of the labor problem?

The boiler and pump at the Giroux shaft at Pilot Knob, White Pine county, is now being installed, and work will be prosecuted to the 600 foot level.

The Nevada Borax works, situated near Boyer, will be started up in the near future. The works are owned by Bacon & Hammond, and were opened last fall.

Nevada state people are pleased at the advance in silver, and some believe the price will go higher yet. A recent purchase made by the government was at 52 1-2 cents per ounce.

The new boiler at the Ruth in Ely, White Pine county, has arrived and is being installed at the works. Extensive development work is to be done in the immediate future.

The Bamberger-De La Mar Gold Mines company of De La Mar has completed its 1,200 horse power electric plant. It furnishes power for the treatment of 700 tons of ore per day.

At the property of the New York and Nevada Copper company, work unwatering the lower levels is going on, and it is probable that active operations will be started shortly. The property is located at Copper Flat, in White Pine county.

It is reported that the Tonopah Water company has ordered a centrifugal pump of six million gallons capacity a day, which it will use in connection with ten artesian wells to be sunk twelve miles from the town. It is claimed that water can be secured at a very moderate depth.

Atwood, in the north end of Nye county, is exciting great attention. Numerous claims have been located having strong ledges, in one of which the ore is reported to assay as high as \$80 per ton. Atwood is thirty-five miles from the railroad. The principal owners are Messrs. Cohn, Duncan, Ennis and Miles.

At the Dexter company's mines and mills at Tuscarora, an attempt is to be made to recover the values included in the slimes. It is said that 25 per cent of the metal from the mine was lost in these slimes, and as the mine has produced about a million dollars, the value of the bullion in the slimes is thought to be very great.

The Quartette mine in Searchlight district, southern Nevada, is said to have cleaned up nearly \$100,000 between January 29 and April 1 last. This did not include tailings in the pit which are estimated to contain \$40,000. The mine is a cyanide plant of 100 tons per day capacity. Two locomotives and ten steel cars. The company have found enough water on the 700 foot level for mining purposes. The mine has forty stamps and is expected by its owner to turn out about 2,000 per day. The principal owners of the Quartette company are Colonel J. H. Hopkins and Mr. George G. Crocker of Boston, and Col. Dunn of Los Angeles.

day when the G. A. R. opened. These visitors include the delegates to the Ladies' Aid Society, the Woman's Relief Corps, and the Ladies of the G. A. R., all of which organizations are holding their respective annual meetings here at this time.

The main feature of the day's program was the parade and grand review. Fully 3,000 persons were in line. The parade was concluded at the Anderson hotel, where uniformed bodies passed in review before Governor Durbin and staff, Department Commander Starr, Mayor Forkner and other persons of note. A number of meetings and reunions were held during the day by the various regiments, companies and the different affiliated bodies. This evening there is to be a civic parade for which preparations have been made on a most extensive scale.

DAILY LETTER FROM THE GOLDEN GATE CITY

(By Mme. On Dit.)

It is unnecessary to tell you that the city is in a flutter just now and if the president of the committee on arrangements can get through without being thoroughly exasperated he ought to receive the highest appointment in the diplomatic service within the gift of the government, for it will be proof positive of the possession of the rarest amount of rare talent. While on, and all are willing to accord much to Mrs. Hearst, there are other prominent women on this coast who deserve some sort of honorable recognition, while Mrs. Hearst is the only one to which it is accorded. Out of her millions the only lady regent gives magnificently, but what else could she do, save to hand it all over to her son, who has already more than he cares to spend. No one has a higher admiration for Mrs. Hearst than your correspondent, but I think President Wheeler is pushing this matter a trifle too far. You will hear all about it the coming week, so I will not give you a mere rehash.

Burlingame is not to be given the go-by, in spite of the death of Irving, M. Scott, but the big luncheon will take place just the same. Whether Henry Scott will preside or not, is not as yet generally known, but swiftness will be out in full force, only Burlingame being permitted within the sacred precincts, for the accommodations are all but too limited. Here will gather the Will Crocker, the Prince and Princess Poniatowsky, Mr. and Mrs. George Hope, Mrs. Elmore Martin, Mr. and Mrs. Walter Martin, Mr. and Mrs. Francis Carlow, Mr. and Mrs. Carlow, Mr. and Mrs. Wm. Tevis and a few whose names I do not just now recall.

The presence of so many ships in our harbor will be a brilliant feature of the week's entertainment and Rear Admiral Glass will be the right man in the right place and everything is falling in line with that degree of order which we are taught is heaven's first law. Thirty years ago Henry Glass was out on this coast a slender young lieutenant, fond of fun and frolic, a toast among the girls and today so little is he altered that one who has not seen him in all that time has only to give him a glance to know that this is one and the same. In all of my experience I have never seen one so little altered in manner as well as appearance.

No one save her nearest friends and relations have seen Mrs. Francis Newlands, in fact, outsiders seem to feel the kindest course they can pursue is not to try and intrude upon her, but the deepest sympathy is expressed for the bereaved sister in every direction. It is said she will adopt Mrs. Wagner's child by her first marriage, a beautiful girl about 11, but no one seems definitely to know. A singular fatality that will have thrown the keeping of three sets of motherless girls into the keeping of this grandly good woman.

The old friends of Bishop and Mrs. Whitaker are looking forward with pleasure to seeing them shortly in our midst. The former is coming for his health, for California seems to be the revivifying touch he needs. The Requas and William Woods' are always the first to find their old friends and much of their time is spent together. The Robert Graves, too, are old friends and all join to show that time has played no part in the tie that was cemented so many years ago.

Young Mrs. Yerrington, formerly of Carson, is making her home among us all. She was the pretty Annie Ladd, who went as a bride to Carson some twenty years ago and such a bonny, blue-eyed bride she was. Since her divorce from Mr. Yerrington she, with her child, have made their home here, where she maintains herself and where the son now is old enough to help.

In about ten days more our city will have attained its air of summer quiet. Already the skies are gray and the winds have taken possession of us. Many who are here remaining only for the sights and sounds attendant upon the president's visit. The only matters of social interest are the festivities and functions complimentary to Miss Olive Holbrook and Mr. Elias Palmer. Over three weeks ago it was said that evening was engaged for some affair complimentary to them. The luncheon given on Friday last was one of the most exquisite affairs ever seen in our city and people are yet discussing the floral decorations. Orchids were there in such number that each guest came out wearing large corsage bouquets of them and the rarest of every kind of floral beauties were there in the same lavish way. Soft lights of every hue were added and gave a charm and when you add about fifty-five beautifully gowned women, all young and happy, the mind can scarcely conceive a fairer picture. Many of the guests were all in white and those who were not, wore the pale shades of pink, blue and green. Miss Blanding and Miss Hol-

brook have been close friends all their lives and so every effort was made to do honor to the bride of June. This evening the J. L. Spreckles gave an elaborate dinner to the same guests of honor.

The story of the engagement of Miss Gertrude Atherton to Poulney Bigelow is not credited in the city, where the former is so well known. Her love of entire freedom and independence are among the mysterious traits of her many-sided character, and that she will re-enter the bonds of matrimony is not credited. She brooks no thought of restraint and Bigelow has too lately cast aside his matrimonial vows to lightly enter again into them. Gertrude Atherton professes not the slightest degree of affection for her daughter, a sweet young matron. Frankly saying, "She bores me nearly to death. I never did care for her."

With Mrs. Crocker, Mrs. Henry Scott and Mrs. Carlow abroad quite a void will be felt among the ranks of matrons. Mrs. Downey Harvey, too, will be among the European wanderers. Miss Azalea Keyes, the daughter of the mining engineer, was presented to the Pope the latter part of April. It was the mark of usual favor, as the health of His Holiness does not admit of these demands, but Miss Keyes took letters which enabled her to enjoy this privilege. Majestically benign, she wrote of him, but a dying man so weakened by the mere act of raising his arms, that help had to be given him at once, and some sort of restorative admitted. Standing was out of the question.

Mary Mannerling will hold the boards this week and people are eager to see the sweet young beauty. Mr. Harry Holbrook gave a large party Tuesday evening, which was followed by a supper at the Palace. While another was given on Wednesday by Mrs. McCutcheon complimentary to Miss Carlow and her fiancée, Harry Polk, and the demand for seats for the entire week is an immense one.

INCURABLE.

That is What the Books Say of Chronic Kidney Disease, But the New Fulton Compounds Have a Record of 87% of Recoveries Among Chronic Cases Incurable by All Other Medicines.

Druggists know that kidney disease that has hung on eight or ten months has become chronic and that it is then regarded by physicians as incurable and that up to the advent of the Fulton Compounds that nothing on their shelves would touch it. It is a proven fact that nearly nine-tenths of all cases are now curable, and druggists themselves are taking the new Compounds. One of the recoveries was Dr. Zeile himself, the pioneer druggist of 639 Pacific street, San Francisco, and he gave it to over a dozen others who recovered. Here is another interesting recovery. (We copy from the Sacramento News of November 10, 1902.)

"After a serious illness of over a year Judge J. R. Allen of this city has recovered and regained himself most fortunate in successfully battling with what is generally regarded as a fatal malady, Bright's Disease of the kidneys. In speaking of his case Judge Allen said: 'I believe that the treatment given me by my physician was in accordance with the best methods used in the regular practice of medicine, but it afforded me no relief. Hearing of the Fulton Compounds I went to San Francisco to investigate and was soon convinced I should undergo the treatment. It was three months before I noticed a change for the better. I used the medicine faithfully for nearly a year and can now find no evidence of the disease and am satisfied it is entirely eliminated. My appetite is good, I have gained seventeen pounds in weight and will be pleased to describe my experience to anyone who may call or write.'"

The editor of the News himself was the friend who told Judge Allen of the Fulton Compounds. They are the only things known that cure kidney diseases after as well as before they become chronic, which happens about the tenth month. Equally efficient in dropsy, gout, rheumatism, uric acid and bladder troubles, Fulton's Renal Compound for Bright's and Kidney Disease, 81¢ for Diabetes, \$1.50. John J. Fulton Co., 416 Washington street, San Francisco, sole compounders. Free analyses for patients. Send for pamphlet. We are the only J. B. McCULLOUGH, Druggist.

SUMMONS

In the Second Judicial District Court of the State of Nevada, in and for Washoe County. Emma Hamilton vs. William Hamilton. The State of Nevada sends to William Hamilton, Greeting:

You are hereby required to appear in an action commenced against you as defendant by Emma Hamilton as plaintiff in the Second Judicial District Court of the State of Nevada, in and for the County of Washoe, and answer the complaint therein within ten days after the service on you of this Summons (exclusive of day of service), if served in said county, or twenty days if served out of said county, but within said District, and in all other cases forty days; or judgment by default will be taken against you according to the prayer of said complaint. The action is brought to recover a judgment and decree in the above entitled court to dissolve the bonds of matrimony now existing between plaintiff and defendant, upon the grounds of desertion, failure to provide and extreme cruelty, as follows, to-wit: That on or about the 28th day of December 1901, the said defendant disregarding the solemnity of his marriage vow willfully and without cause deserted and abandoned the plaintiff, and ever since has, and still continues so to willfully and without cause desert and abandon said plaintiff and to live separate and apart from her without any sufficient cause or any reason and against her will and without her consent.

That the defendant for more than one year last past has willfully neglected to provide for plaintiff the common necessities of life, having the ability so to do, and has compelled plaintiff to live upon the charity of friends. Notwithstanding, he is abundantly able to support her, and is worth as this plaintiff is informed, and believes about the sum of seventy-five dollars, and is in the constant receipt of wages sufficient for their joint support from his daily labor, to-wit: About sixty dollars per month.

That on or about the 5th day of August, 1901, at the town of Winnemucca, County of Humboldt, State of Nevada, the said defendant without any just cause or provocation whatsoever, placed a loaded revolver to this plaintiff's left temple then and there threatening to kill her.

All of which will more fully appear from the Complaint, which is on file in the office of the Clerk of said Court, at Reno, in said county, and to which you are especially referred. And you are further notified that if you fail to appear and answer said complaint, the said plaintiff will apply to the Court for the relief demanded.

In testimony whereof, I have hereunto set my hand at Reno, this 7th day of May, A. D., 1903.

O. H. MACK,

Attorney for Plaintiff.

A STARTLING TEST

To save a life, Dr. T. G. Merritt, of No. Mehoopany, Pa., made a startling test resulting in a wonderful cure. He writes "a patient was attacked with violent hemorrhages, caused by ulceration of the stomach. I had often found Electric Bitters excellent for acute stomach and liver troubles so I prescribed them. The patient gained from the first, and has not had an attack in 14 months." Electric Bitters are positively guaranteed for Dyspepsia, Indigestion, Constipation and kidney troubles. Try them. Only 50c at J. S. Hodgkinson's.

CITATION

In the Second Judicial District Court of the State of Nevada, in and for the County of Washoe.

In the matter of the application of Lulu McKissick for the perpetuation of the testimony of T. V. Julien.

The State of Nevada sends greeting to Jonathan J. McKissick, Margaret E. Chandler, Mrs. Ella C. Clinkenbeard, G. W. McKissick, Lillie M. Davis, Martha M. Tipton, Mrs. L. C. Sellick, John B. McKissick, Hanna J. Wilkerson, H. B. Fugitt, H. H. McKissick, Etta Wilkerson, John Doe, Richard Roe and Mary Moe.

You and each of you will take notice that on the 1st day of May, 1903, Lulu McKissick, as administratrix and as heir at law of B. H. McKissick, deceased, for the benefit of herself and all the heirs of B. H. McKissick, deceased, presented a petition in due form to the Judge of the Second Judicial District Court of the State of Nevada, in and for the County of Washoe, wherein it is alleged that you and each of you, and others whose names to the said petitioner are unknown, are threatening to commence suit against the petitioner as administratrix of the estate of B. H. McKissick, deceased, and against the heirs of B. H. McKissick, deceased, for property belonging to them in this state, and praying for an order to examine Thomas V. Julien, and to perpetuate his testimony that the same may be used in all matters pertaining to the property of the said B. H. McKissick, deceased, as will more fully appear by reference to the petition now on file herein and to which you are referred, and that on the 1st day of May, 1903, an order was duly given and made by the Hon. B. F. Currier, Judge of the said Second Judicial District Court, allowing the examination of the said Thomas V. Julien and prescribing the notice to be given.

Now therefore in accordance with the said petition and the order for the examination of the said Thomas V. Julien, notice is hereby given that on the 21st day of May, 1903, at ten o'clock, a. m., at the residence of the said Thomas V. Julien, at 103 West street, in the city of Reno, County of Washoe, State of Nevada, the said Thomas V. Julien will be examined before the Hon. B. F. Currier, Judge of the Second Judicial District Court of the State of Nevada, in and for the County of Washoe, in regard to the matters set forth in the said petition, and his testimony there given will be taken down in writing and perpetuated.

And you and each of you and all other persons having or claiming to have any interest in the property of the estate of B. H. McKissick, deceased, and adverse to the heirs of the said B. H. McKissick, deceased, are hereby notified that they may then and there appear and examine and cross-examine the said Thomas V. Julien upon and concerning the matters set forth in the said petition of the said Lulu McKissick.

Witness the Hon. B. F. Currier, Judge of the Second Judicial District Court of the State of Nevada, in and for the County of Washoe, with the seal of said Court affixed, this 1st day of May, 1903.

SAN FRANCISCO, May 13.—Five public receptions and addresses and two reviews, to say nothing of drives, luncheon and other minor features of the program, were the events crowded into the second day of President Roosevelt's visit in San Francisco. But Mr. Roosevelt, nothing appalled by the strenuous task before him, arose early and entered into the enjoyments of the day with genuine enthusiasm. After breakfast he received several callers and at 9 o'clock started under military escort for Native Sons' hall, where he was received by the Native Sons of the Golden West and the society of California Pioneers. A half hour later found him reviewing a parade of school children in Van Ness avenue. A review of the United States troops at the Presidio was the next feature on the program. This occupied the time up to noon when the president and his party were taken for a drive through Golden Gate park to the ocean beach and thence to the Cliff House, where luncheon was had with the members of the local reception committee.

The program for the afternoon called for two addresses, one before the veterans of the Spanish war and the second at the state encampment of the Grand Army of the Republic. The day ended with a drive through Market street to the Mechanics' Pavilion, where there was a public reception and an address by the president.

New President of Oberlin

OBERLIN, O., May 13.—Oberlin was garbed in crimson and gold, the college colors, today, marking the inauguration of a new president of Oberlin college, Dr. Henry Churchill King, in succession of the late Dr. John Henry Barrows. The first church, where the inaugural ceremonies took place this morning, was elaborately decorated with flowers and potted plants. The attendance included the students, members of the faculty, trustees, alumni and friends of the institution from many points. The address of the day was delivered by President Tucker of Dartmouth college, after which the new president delivered his inaugural, taking as his subject, "Personal and Ideal Elements in a College Education."

The new president of Oberlin college was born in Hillsdale, Mich., September 18, 1858. Most of his college experience has been in connection with the institution of which he is now president. In 1879 he received from Oberlin the degree of A. B. In 1883 Harvard gave him the degree of D. D. From 1879 to 1882 he was professor of Latin and mathematics in Oberlin. For two years Dr. King was a student in Berlin. Since 1897 he has been directly connected with Oberlin and was the unanimous choice of the trustees for the presidency of the institution upon the death of Dr. Barrows.

NEW YORK, May 13.—In line with the work started last winter the executive committee of the National Civic Federation began a special meeting in this city today to further discuss ways and means for bringing about harmony between labor and capital. This is the committee of which Senator Hanna is chairman, and among the members are Samuel Gompers of the American Federation of Labor, former President Grover Cleveland, Cornelius N. Bliss, Archbishop Ireland, President Eliot of Harvard, Bishop Potter and other men of note.

The special purpose of the present meeting, it is understood, is to agree upon some satisfactory plan by which strikes may be averted. It is said that suggestions will be made by the members to appoint arbitration boards in the various districts. These arbitration boards will be composed of representatives of all interested parties. Any trouble that arises between employer and employee will be referred to the board for settlement. If the board fails to reach an agreement satisfactory to both sides, then the matter will be placed in the hands of a higher arbitration board. The Civic Federation, it is understood, will suggest that it act as the higher board. It is further suggested that while the dispute is in the hands of either of the boards, no strike can be declared.

King Edward in Edinburgh

EDINBURGH, May 13.—The second day of King Edward's visit to the Scottish metropolis was a busy one, beginning at 10 o'clock this morning with an inspection of the Black Watch in Dalkeith Park and ending at a late hour in the afternoon with the formal opening of a new hospital at Colinton. At the inspection of the Black Watch and the presentation of South African medals to the officers and men of that regiment the king and queen left Dalkeith for Holyrood House, where they took lunch. The decorated streets of the capital were crowded with spectators and their majesties met with joyous acclaim.

In the afternoon the king and queen visited Edinburgh Castle, St. Giles' Cathedral and the Royal Infirmary, where the king presided at the opening of the new pavilion. The drive to Colinton Mains was made by way of George IV. Bridge and Lauriston and the return trip to Dalkeith by way of Braids Hills and Gilmerton, without returning to Edinburgh.

LAST WINTER STOCK LOST

Agricultural Department Reports on Six States.

The loss of stock in the western states during the past winter, according to reports from Washington, was as follows:

According to the crop report of the agricultural department just issued this has been an unprecedented hard winter on the western stockgrowers. Wyoming leads the list of sufferers with the loss of 792,356 sheep and 71,777 cattle through disease and exposure, 11.5 per cent of all the sheep in the state were lost through exposure and 2.1 per cent through disease.

Idaho comes next with a loss of 8.9 per cent of all her sheep through exposure, and 2.1 per cent through disease, or 499,600 in all.

Utah lost 7.8 per cent through exposure and 2.1 by disease, 353,436 sheep in all.

The following statement gives the loss from all causes by state:

	Horses.	Cattle.	Sheep.
Wyoming	2,950	71,777	792,353
Idaho	3,707	22,057	499,600
Utah	1,042	15,551	353,436
Nevada	1,824	25,852	100,379
Montana	3,452	52,845	643,126
Colorado	4,928	128,052	245,423

Three hundred and twenty-five thousand seven hundred and twenty-two horses, 2,936,318 cattle, 5,206,058 sheep and 2,732,746 swine were lost in the United States during the winter. It will be noted, therefore, that over half of the sheep lost were in the six western states named above. It is accounted by the severity of the winter weather and by the fact that the greatest number of sheep are in those states.

Crosscutting the Ledge

Superintendent C. W. Hopkins of the Galena Hill mine came in from Wadsworth last evening to meet Mrs. Hopkins, who arrived from Jamestown, Cal., to make her home here. The tunnel in the Galena Hill has been advanced to 512 feet in the hanging wall at the edge of the quartz, which assays from \$2 to 5.

A crosscut is now being run to the footwall where the rich galena streak is expected to be picked up.

His Trunks Attached

Last evening a commercial traveler, who happened to owe a little bill of \$300, started to take the train for the west, but a policeman hove in sight and levied an attachment on his trunks for the sum above mentioned, the allegation being that he was attempting to leave the state to evade creditors.
